Partial counter to keep track of your burrs usage

4 pre-programmed buttons to quickly select your frequent grind settings

Customizable welcome message

MAZZER

ZM high tech grinding power

ZM features sets of burrs specifically studied and designed to grind either filter coffee or espresso

The lowest coffee retention ever seen, <0.45g
> 1 bean you grind, 1 bean you get ground

> Perfect burrs parallelism to get perfect particle size distribution of coffee grounds

> Low r.p.m. with excellent grinding speed keep coffee grounds cooler to preserve coffee flavour and taste compounds thanks to ZM's ventilation system with electronic control and also low RPM (rotation per minute) 900 (50Hz) r.p.m. – 1050 (60Hz) r.p.m.

Micrometrical grind adjustment mechanism to get
> Maximum precision

> Simple and Fast
-20 pre-programmed grind settings recordable on the control panel via LCD display
-Smart knob to navigate the menu

Grinding Chamber > easy to clean

> On-demand dosing capability
Adjustable grinding time

> Secure double safety switch

> Keep your counter spick and span
With the special patented lockable canister system
