

# KEEP EXPLORING, LIKE A HERO

E37Z  
Hero

Coffee flavour is an adventure

**Ceado**

Ceado E37Z-Hero is the result of Italian craftsmanship and cutting-edge technology in a single-dose coffee grinder, with a functional design which breaks old patterns, equipping baristas with the best features so to express their will to experiment.

## E37Z-Hero skills

### Zero retention hero

The zero contamination with previously ground coffees, allows to explore different origins and varieties, without wasting a single bean or emptying the grinding chamber and cleaning the burrs.

Ceado Quick Set Gear simplifies the adjustment of the particle size, so to optimise the grinding, from espresso to filter coffee.

## KEEP EXPLORING, LIKE A HERO.

Z-Hero station creates customised grinding profiles, so to experiment with different types of extractions. Adjusting the rpm, each individual grind will produce different flavour profiles, even when using the same beans.

Z-Hero burrs DLC-coated and without screws on the surface, exclusively engineered with two different designs.

DLC-coated grinding chamber inclined at 45°, with total zero retention both in input and output.

Ceado Steady Lock Grinder ensures under any condition the parallelism and the constant distance between the burrs, thus maintaining the set granulometry.

Z-Hero tools dedicated to those who desire to truly explore coffee in a single dose.
